Pixfra™

**2 ANS
GARANTIE**

High definition night vision for hunting or observing at night!

The Pixfra M60 allows you to observe animals or humans in complete darkness because they emit body heat which makes them stand out from their environment.

2 models (**detailed technical characteristics in PDF at the bottom of the page**) :

- M60 - 18 mm lens - 24° angle equivalent to a 2x zoom - Max distance: 750 m
- M60 - 25 mm lens - 18° angle equivalent to a 2.5x zoom - Max distance: 1,041 m

Pixfra M60 thermal vision monoculars have many functions:

- HD image thanks to its 640x512 pixel 12µm sensor - Image: 1280 x 960 pixel
- Range: detection up to 1,041 m!
- 4 display modes depending on the situation: Iron red, Hot black, hot white, Alarm
- Fire detection: fire marker of 2mx2m at 1 km distance
- Rangefinder function: measures the distance of the target based on its size on the screen (4 modes)
- Direct WiFi transmission of images to your smartphone using the *Pixfra Outdoor* App. And ability to adjust the monocular, take photos or record thermal video directly from the phone.
- Internally: slot for an SD card up to 256 GB for photos and videos, micro USB and CVBS connectivity.
- Long-lasting battery: up to 9 hours of battery life. Automatic standby if the device is not used.
- Integrated laser to designate targets.
- Resistant: 2m drop, IP67 waterproofing
- Standard 1/4" photo stand nut, cover and strap supplied.

WARNING: DO NOT DIRECT IT TOWARDS THE SUN AS THIS WILL BURN THE SENSOR INSTANTLY!

Thermal vision goggles are available over the counter. It is the ideal observation accessory for the hunter, the nature enthusiast, the hiker.

The Pixfra M60 thermal monocular is the essential tool for observing subjects at night.

Its small footprint makes it easy to carry in your bag. It will follow you everywhere during your night outings.
