- Frame materials: PC / TPR
- Lens material: 2.2 mm Polycarbonate
- ATEX certification for explosive atmosphere
- Protection standards EN166-EN170 - UKCA

Streamlined, lightweight and thin ballistic goggles perfect for the sports shooter looking for a helmetcompatible frame for extended wear.
Its flexible and thin temples adapt to the morphology of the face and fit perfectly under the helmet. During prolonged wear, the temples will not cause discomfort due to pressure on the skull.
In addition, their low thickness ensures maximum sealing between the helmet and the ears for maximum acoustic protection.

Its panoramic mono-screen offers a wide and unobstructed vision.
Its lenses use CSP technology (Comfort, sense, perception) offering great sharpness and image clarity. Its Platinum anti-fog and anti-scratch treatment gives the glasses a longer life.
