#### Continuous Light Output:

- The LED chip of this tactical flashlight provides a maximum brightness of 360 lumens in continuous mode, ensuring reliable and constant illumination.

#### Adjustable and Precise Laser:

- The built-in 532nm, <5mW laser is Class IIIA. The laser's elevation and aim are adjustable using the included Allen key, ensuring maximum accuracy.

**Durable and Waterproof Construction:**

- Made from aircraft-grade anodized aluminum, this device is shock and vibration resistant, and waterproof to IP66 standard, ensuring optimal durability even in harsh conditions.

**Rechargeable Battery and Autonomy:**

- The built-in 500mAh battery provides up to 2 hours of continuous operation at 650 lumens. Charging is convenient via the magnetic charging port, with the cable included in the package.

**Charge Indicator:**

- The charging indicator, located near the magnetic charging port, displays red while charging and green once the battery is fully charged, providing clear visibility of the battery status.

**Intuitive Use:**

- The laser switch turns the laser on/off. A single press turns the laser on/off, while a two-second press activates the strobe mode. In strobe mode, a two-second press completely turns it off, ensuring precise and customized use.
